Quotes

I think everyone should want to do this experience and once they have been through they would want to repeat it. The whole trip was a blast. I learned about a different reality and about myself as a surgeon. It is a test of what you can achieve as a surgeon as a teacher and a human being.

- ACS H.O.P.E. Volunteer

Their recent trips to our worksite underscored the significance of effective communication and mutual respect in patient care. Their contributions enriched our understanding of diverse healthcare practices, enhancing our holistic approach to treatment.
