

Index, Volume 43
(1958)

Bulletin OF THE
American College
of Surgeons

40 East Erie Street, Chicago 11, Illinois

Index to BULLETIN, Volume 43 (1958)

THIS INDEX includes only the six issues of Volume 43, 1958, of the American College of Surgeons' BULLETIN. By author and subject, it is the third annual index to be made, the other two having been for Volume 40, 1955 and Volume 41, 1956.

In 1957 was published a cumulative index, which included Volumes 31 through 42, or the years 1946 through 1957. This is available upon request. Copies of an earlier cumulative index entitled "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945" are also available upon request, in limited supply.

As in general the aim of the BULLETIN is dissemination of news and information about the College to its Fellows, the subject "American College of Surgeons" in the following index takes in only items concerned with College history and administration. Other College activities are listed by name, followed by the letters "A.C.S.," i.e., "Scholarships, A.C.S.," "Committees, A.C.S."

Author Index

A

- ALLEN, J. GARROTT. Committee on Blood Transfusions (Annual Report). Sept-Oct., 1958, 43:5, 434
Committee on Television (Annual Report). Sept-Oct., 1958, 43:5, 430
- ANDERSON, ODIN W. and FELDMAN, JACOB J. Distribution of Patients Hospitalized for Surgery in the United States from July 1952 to July 1953. Sept-Oct., 1958, 43:5, 236-241

B

- BRYANT, W. ALTON. Today's Ideal: The Enlightened Servant of His Fellow Men. May-June, 1958, 43:3, 151-152

Apply Now for New Cancer Research Fellowship at Texas Medical Center

ApPLICATIONS for the William and Lola Heuermann Cancer Research Fellowship at the University of Texas M. D. Anderson Hospital and Tumor Institute, Houston, are now in order. The deadline is December 1.

For research in the field of experimental surgery, the fellowship, will be awarded to the applicant considered best qualified by a committee appointed by the director of the M. D. Anderson Hospital.

Applications are to be addressed to: Office of Education, The University of Texas M. D. Anderson Hospital and Tumor Institute, Texas Medical Center, Houston 25, Texas.

The tenure of the Fellowship is for one year and may be extended for one or two additional years. If the applicant desires to continue his work at the conclusion of this period, and the results achieved by him justify such action, the hospital will arrange for an extension.

The annual stipend will be \$7,000 for the first year and \$7,500 for the second year. No dependency allowance is available for a married Fellow.

Applications will be accepted from graduates of Class A medical schools who have completed an internship and at least three years of residency training in surgery. Preference will be given to those applicants who have completed the minimum requirements for certification by the American Board of Surgery, and who have done original research in any of the natural sciences.

The Fellow will be required to devote his full time to scientific research in the field of cancer. A project in experimental surgery will be selected by him and approved by the head of the department of surgery and the director of the hospital. Studies and research will be done in the experimental surgery laboratories at the Anderson. The Fellow will be responsible for correlation and interpretation of results obtained, and at the end of the Fellowship period will be required to submit a complete report of his work, and the conclusions which may be drawn.

Applications are to be in letter form and accompanied by 1) complete copies or transcripts of the applicant's college or university records; 2) statement from the dean of the applicant's graduate school, indicating the year of completion, relative

class standing, and general aptitude for research; 3) statement from the chief of the surgical staff of the hospital or hospitals in which the applicant had residency, noting his general aptitude for research; 4) statement of any original research done by the applicant, and if done on an individual, co-worker, or assistant basis; and 5) reprints of any articles published by the applicant.

A.H.A. Distributes Bulletin on Staph Infections to Hospitals

MEASURES to aid in reducing the current worldwide problem of infections in hospitals caused by antibiotic-resistant staphylococci have been recommended by the American Hospital Association.

The recommendations were included in a bulletin on "Prevention and Control of Staphylococcus Infections in Hospitals" recently mailed by the Association to the more than 7,000 hospitals in the United States and Canada.

The bulletin recommended that "all hospitals should establish committees on infections to devote particular attention to infections which are acquired in hospitals so they may be reduced to the lowest possible minimum," and suggested that "the local health officer should be urged to serve as a consultant to the committee."

Recommended functions of the committee on infections include:

1. Establishment of a system of reporting infections among patients and personnel.
2. Keeping of records of infections.
3. Distinguishing as far as possible between infections acquired in the hospital and infections acquired elsewhere.
4. Reviewing the hospital's bacteriological service to insure its quality and accessibility.
5. Reviewing aseptic techniques used in operating rooms, delivery rooms and nurseries, and if necessary, recommending methods of improving these techniques.
6. Reducing "to the minimum consistent with adequate patient care" the "use of antibiotics, especially as 'prophylaxis' in clean elective surgery," and treatment with adrenocortical steroids.
7. Undertaking an educational program to convince medical staff and hospital employees of the importance of reporting skin infections, boils and upper respiratory infections.
8. Establishing follow-up techniques to find sources of infections and to locate infections acquired in hospital which appear after discharge.

Index, Volume 44
(1959)

Bulletin OF THE
American College
of Surgeons

40 East Erie Street, Chicago 11, Illinois

Index to BULLETIN, Volume 44 (1959)

THIS INDEX INCLUDES only the six issues of Volume 44, 1959, of the American College of Surgeons' BULLETIN. By author and subject, it is the fourth annual index to be published, the other three having been for Volume 40, 1955, Volume 41, 1956, and Volume 43, 1958.

In 1957 was published a cumulative index, which included Volumes 31 through 42, or the years 1946 through 1957. This is still available upon request, and a few copies of an earlier index entitled "Index to the Publications of the American College of Surgeons Since Its Founding, 1913-1945" are also available upon request.

As, in general, the aim of the BULLETIN is dissemination of news and information about the College to its Fellows, the subject "American College of Surgeons" in this index takes in only items concerned with College history and administration. Other College activities are listed by name, followed by the letters "A.C.S.," i.e. "Committees, A.C.S.," "Fellows, A.C.S."

Degree to Dr. Dragstedt

(Continued from page 514)

connected, supporting and correcting each other, the work meets in every respect René Leriche's definition* of surgical research. It may be cited as an example of great scientific integrity.

"To these lofty standards are added Professor Dragstedt's great feeling for France and also the singular regard in which he is held at the University of Lyons. He was here previously in 1953, to give a lecture at the Surgical Society of Lyons, . . . and the young Lyonnais scholars who have frequented his service all speak of the cordiality, the sincerity, the simplicity of his welcome. . . ."

**La philosophie de la chirurgie* (Paris: Flammarion, 1951)

The Bulletin is sent free to all Fellows of the College, members of the Candidate Group, and hospitals accredited by the Joint Commission on Accreditation of Hospitals. Distributed only by the College, this bimonthly is not available through magazine agencies, government bureaus or other groups; and is not available on a subscription basis. Address inquiries to Editor, BULLETIN, A.C.S., 40 East Erie Street, Chicago 11, Illinois.
